### **Important indications with the consignment for the repair:**

- ➔ The carriage of the customer to Deutronic and all Deutronic service centers / Service partner have to be carried by the customer (one-way regulation.)
- ➔ Provided that a customs processing is required, the customer must take care that all required documents for the customs clearance are presented. For missing documents **the service center is not responsible** and may decline the acceptance of the product , if costs arise from it (storage costs, handling fees etc. ).
- ➔ The repair has to be advised in the service center under detail of the serial number before.
